

# PLANT the SEEDS and MOVE the WORMS

## ECO City Farms Community Open House and Fundraiser

SATURDAY, MAY 3rd, 2014. 12:00-2:30PM

Location: 4913 Crittenden St., Edmonston, MD 20781

**It takes a community to grow an urban farm!**

ECO City Farms is growing and expanding to create room for more production at our Edmonston Farm, so we are moving our thousands of red wiggler worms to our second farm at Bladensburg.

We need YOUR help – to ensure a safe move for our worms, and continue our key role in producing healthy food and farms for our community.

**Please Donate what you can!**

Your donation from \$5 to \$50 to \$500 will help us plant for the season, subsidize the cost of farm shares for low-income families, give kids at our SEED2FEED Summer Youth Camp an unforgettable experience, and help build the roomy, new worm bins.

Contribute \$500 or more, and we will put a plaque with your name on it on a new worm bin at our Bladensburg farm.

A recurring monthly donation of as little as \$5 is easy on your wallet and lets us plan ahead and thrive. Make your donation online at [www.ecocityfarms.org](http://www.ecocityfarms.org) or in person at the May 3 Open House. Email [info@ecocityfarms.org](mailto:info@ecocityfarms.org) with any questions about donating.
