

WELCOME TO ECO CITY FARMS

**WE GIVE THE GOOD FOOD
A FIGHTING CHANCE**

**WE TAKE RESPONSIBILITY FOR
BEING STEWARDS OF THE PLANET**

...PROTECTING NATURE
FOR ITS OWN SAKE
AND ...

**ENSURING OUR CONSUMPTION LEVELS
ARE SUSTAINABLE.**

**GOOD FOOD IS LOCAL, HEALTHY
AND SUSTAINABLE**

**LOCAL FOOD
TASTES
BETTER**

A top-down photograph of various fresh vegetables arranged on a light-colored, slightly textured surface. In the upper left, there is a bunch of radishes with bright red skin and white roots, still attached to their green leafy tops. To their right is a large, single leaf of a dark green leafy vegetable, possibly Swiss chard. Further right are two bright orange carrots with their green feathery tops. In the foreground, there are three distinct bunches of dark green leafy vegetables, likely spinach, each tied together at the stems with a small piece of light-colored string. The overall lighting is soft and even, highlighting the natural colors and textures of the produce.

**FRESH
FOOD
IS HEALTHIER
THAN
PROCESSED**

LOCAL FOOD IS BETTER THAN TRANSCONTINENTAL

**GOOD
FOOD
IS
THE
FUTURE**

GOOD FOOD ATTRACTS THE YOUNG & PROMOTES PROSPERITY

**GOOD FOOD ALLOWS YOUTH
TO GROW UP HEALTHY**

THE GOOD FOOD MOVEMENT = FUTURE

A group of approximately 15 people, including men, women, and children, are standing in a loose circle on a gravel or dirt area. They are dressed in casual outdoor clothing like jackets, hoodies, and jeans. In the background, there is a long, low building with a red door, a fenced-in area with a chain-link fence, and a large sign that says "ECO CITY FARMS". The scene is outdoors with some trees and a clear sky.

THE GOOD FOOD FUTURE LIVES AT ECO CITY FARMS

**WE WANT EVERYONE
TO HAVE
ACCESS TO GOOD FOOD**

A close-up photograph of a monarch butterfly perched on a bright yellow flower. The butterfly's wings are orange with black veins and white spots along the edges. The background is a soft-focus green, suggesting foliage.

LIFE ON EARTH
IS A COMPLEX
WEB OF INTER-
DEPENDENT
ECOSYSTEMS
WHICH
INCLUDES US.

A close-up photograph of a bumblebee with yellow and black stripes, perched on the dark red, spiky center of a pink flower. The background is a soft-focus garden with green leaves and other pink flowers.

**WE ARE ALL ENTIRELY DEPENDENT
ON CLEAN AIR, FRESH WATER &
HEALTHY FOOD FOR OUR SURVIVAL.**

REAL FOOD HEALS

REAL FOOD CONNECTS TO OUR TRADITIONS

WE GROW GREAT REAL FOOD

WE GROW FARMS AND ...

WE GROW FARMERS!

ECO CITY FARMS IS VITALITY
